Mary D. Nichols  
Chair  
Air Resources Board  
California Environmental Protection Agency  
1001 I Street, PO Box 2815  
Sacramento, CA 95812

**Re: The 3rd Investment Plan**

Dear Ms. Nichols:

New Era Group, Inc. is a consulting company that represents small business concerns committed to contributing to the development of regulations that provide the best outcome for the environment and more over help to further protect public health and safety. Our Clients are pleased to express our support to this crucial matter.

The legislation and action taken by the State of California will be a blue print for the Nation in the ongoing attempt to combat climate change. We support the efforts of ARB.

We hope that ARB will look carefully at the need to destroy high GWP refrigerants to insure that the goals set for 2030 are met. We hope in the future we will be allowed to present innovative ways to achieve these goals with the least amount of financial burden on the residents of California. New Era too encourages Air Resources Board to prioritize GGRF investments in support of SB 1013 to reduce HFC emissions.

On behalf of or clients
